<b>NOTES:</b>			
*Students transferring to UT Martin should take ECON 2010: Macroeconomics as one of their two Social/Behavioral General Education Courses.			
Students are encouraged to take two courses, Circuits II and Digital Design, before transferring to a university. Courses in engineering technology do not fulfill any of the requirements for the Area of Emphasis in Electrical Engineering.			
Although it is possible to compete the B.S. Degree in Electrical Engineering in four semesters after earning the associate's degree, students typically need five or six semesters to complete requirements.
